Good Morning Mr Mtswei,

I trust this email finds you well. I have attached the project Background Information Document and Questionnaire to this email for your consideration.

Could you please advise me if you have a list of occupiers and contact details for the project area (ie. Farm Kalabasfontein) for inclusion on the project I&AP database? Alternatively, is there a way you can inform the occupiers about the project and ask them to contact EIMS.

I will give you a call later today to discuss.

Should you have any comments or queries please feel free to contact me.

Good afternoon,

Thank you for notifying SAHRA of the proposed development. Please note that all development applications are processed via our online portal, the South African Heritage Resources Information System (SAHRIS) found at the following link: <http://sahra.org.za/sahris/>.

Please create an application on SAHRIS and upload all documents pertaining to the Environmental Authorisation Application Process. As per section 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA), an assessment of heritage resources must form part of the process and the assessment must comply with section 38(3) of the NHRA.

Once all documents including all appendices are uploaded to the case application, please ensure that the status of the case is changed from DRAFT to SUBMITTED. Please ensure that all documents produced as part of the EA process are submitted as part of the application, and are submitted to SAHRA at the beginning of the Public Review periods. Once all these documents have been uploaded, I will be able to issue an informed comment as per section 38(4) and 38(8) of the NHRA.

Kind regards,

Good day

Mpumalanga Agriculture is the provincial affiliate from Agri SA in Mpumalanga. We represent a substantial percentage of commercial farmers in the province. At this stage we host 35 farmers associations from over Mpumalanga.

Our main objective is to assist our members with the sustainable production of food. In Mpumalanga there will always be great competition between agriculture and mining for the same arable land.

In this case it is our duty to make sure that food security and the interests of our members will not be place at risk by the Environmental Notification, Background Information Document and Comment form for the proposed Kalabasfontein Project.

Please find attached general requirements for works at or near Eskom infrastructure. The proposed portions is bounded by the Eskom traction line next to the railway line on the north-eastern side. Although the mining will be underground, Eskom and other infrastructure must be safeguarded against possible ground collapse as well as underground fire risks.
