Dear Sir/Madam,

IN RE: COUWENBURG BOERDERY // MANUNGU COLLIERY PROJECT

1. We refer to the above mentioned matter and confirm we are instructed by Couwenburg Boerdery (hereinafter referred to as "our client") to address this letter to you.
2. Our client as an Interested and Affected Party and after perusing the Background Information Document of the project hereby raises the following concerns with regard to the proposed project:
3. Polluted Water
 - 3.1. Our client is concerned that the groundwater of the mining project will negatively impact the water quality that is being circulated to our clients farm. Our client uses the water for their cattle and agriculture. The contaminated water will have a negative impact as our client will not be able to use the water which will be circulated from the proposed coal processing facility. In the event that the disposed wash plant water waste is circulated into the water system of our clients our clients it will result in the water being contaminated and unusable.
4. Air Pollution
 - 4.1. The release of the methane gasses into the air as a result of the coal mining will negatively impact

the living condition of the nearby environment of the proposed coal processing facility and will have severe health implications for the workers of our client and livestock.

- 4.2. The livestock, agriculture as well as the persons living within the surrounding area of the facility which includes our clients farm will be severely effected by the air pollution as a result of the stock piles height amendments. As a result of the higher stockpile there will be more dust and which will further negatively impact the surrounding livestock, agriculture and heath of workers on our clients farm.
5. Once we receive the scoping report we will once again provide you with our clients feedback and commentary.

Yours faithfully,

Dear Cheyenne,

Our client provided us with your notification with regards to the abovementioned matter dated 20 July 2018 under your project reference number 1177.

You indicated in your notification dated 20 July 2018 that all I&AP's whom have registered during the initial notification periods for this project will remain registered moving forward.

We have registered previously Afgri as an interested and affected party and we await your further reports on the proposed new infrastructure, facilities and amendments to the existing licenses upon which we will comment thereon on behalf of our client.

We trust you find the above in order.

Kind Regards,

NADIA HETZEL

Dear Cheyenne,

Trust you are well.

I refer to the draft scoping report with regards to the Manungu project.

Our client is the landowner of portion 11 of the farm Welgevonden 272 IR and silo number 3997 is situated on this property.

We note the public participation meeting is scheduled for 7 August 2019 and we will provide our comments.

We also note that underground mining is planned for the abovementioned portion.

Kindly provide us with the blasting report as the scoping report is not providing any detail with regards to the blasting and vibration.

As you know we only need to determine our client's risk with regards to the silo.

Kindly indicate how the silo will be affected in light of the proposed blasting.

Trust you find the above in order.

Kind Regards,

To whom it may concern

Dear Sir or Madam:

NOTIFICATION REGARDING OPPORTUNITY TO PARTICIPATE IN VARIOUS ENVIRONMENTAL LICENCING PROCESSES FOR MBUYELO COAL'S MANUNGU COLLIERY IN THE VICTOR KHANYE LOCAL MUNICIPALITY, MPUMALANGA PROVINCE

Tshedza Mining Resources (Pty) Ltd. (hereafter referred to as 'Tshedza'), a subsidiary of Mbuyelo Coal (Pty) Ltd. has appointed Geo Soil and Water cc (GSW) as the Environmental Assessment Practitioner (EAP) to assist with undertaking the necessary authorisation and amendment processes for Manungu Colliery. In turn GSW has appointed Environmental Impact Management Services (EIMS) as well as various specialist sub-consultants to assist with compiling the necessary reports and undertaking the statutory consultation processes, in support of proposed new infrastructure, facilities and amendments to existing licences as described herein. Subsequent to the previous Environmental Impact Assessment (EIA) and associated public participation processes undertaken for this project, there have recently been material changes to the proposed mining areas which have resulted in the previous application having been withdrawn. A new application will be submitted in due course based on the revised mining areas. This notification forms part of the initial call to register as part of the new application process.

The existing Manungu Colliery is located approximately 9km south of the town of Delmas in Victor Khanye Local Municipality, within the Nkangala District Municipality, Mpumalanga Province, South Africa. The approved mining right (MR) comprises of all portions of the farms Weilaagte 271 IR and Welgevonden 272 IR. The proposed mining activities will occur on portions 5, 6, 7, 8 and 9 of the farm Weilaagte 271 IR and portions 1, 2, 3, 4, 6, 10, 11, 12, 14, 16, 17, 18, 19 and the remaining extent of the farm Welgevonden 272 IR. The below-mentioned activities will all occur within the existing mining right area. The geographic coordinates at the center of the site are approximately: 26°14'33.09" S and 28°41'28.22" E.

Notice is given in terms of Chapter 6 of the Environmental Impact Assessment (EIA) Regulations, 2014 (GN R. 982) promulgated under the National Environmental Management Act (Act 107 of 1998) (NEMA), of applications for Environmental Authorisation (EA) (i.e.: Scoping and Environmental Impact Report (S&EIR)), Integrated Water Use Licence (IWUL) and Waste Management Licence (WML) for the proposed new infrastructure and facilities as well as amendment applications to the existing EA/EMP and IWUL, on Manungu Colliery.

Tshedza wishes to expand their mining activities to accommodate an extended Life of Mine (LOM) plan based on currently quantified reserves which extends mining activities outside of the current NEMA, National Environmental Management Waste Act (NEMWA), and National Water Act (NWA) approved areas. All proposed mine expansion activities (e.g.: opencast and underground mining, stockpile areas, etc.) will be contained within the approved mining right boundary, and environmental approvals will be sought for various mining related activities.

As part of the application processes, Tshedza further intends to include the licencing of new boreholes for domestic consumption, a french drain system to complement the septic tank system and establish a coal processing facility (wash plant) in order to complement the existing beneficiation facility (crushing and screening plant). Furthermore, various options are to be considered to manage expected water volumes within the pollution control dam. As part of this application, various amendments to the existing EA/EMP as well as IWUL will also be applied for in order to align the specific conditions with the current status of the mine as well as to clarify certain conditions where relevant, a Section 102 amendment application will be undertaken in terms of the Mineral and Petroleum Resources Development Act (Act 28 of 2002).

Good day

1. As per our telephonic communication, I would please like to confirm that Mr and Mrs Nel are registered as interested and affected parties for the Manungu Colliery Project (EIMS Reference Number: 1177).
2. May we also please receive in a letter or via email communication that the first application has been closed and a new one will be lodged.
3. Lastly, may we please be notified when the scoping report with the appropriate amendments will be available whereby the allocated 30 days to comment will be begin. Thank you so much, have a great day further.

Dear Deshree,

Thank you for taking my call earlier and my apologies for not being able to reply sooner.

As per our telephonic conversation yesterday kindly note that Mr and Mrs Nel have been registered to the project I&AP database with the following contact details: Jurg Nel, Werda Handel (Pty) Ltd, 083 327 3072/ 083 327 4914, jurnel@telkomsa.net/ fournel@telkomsa.net. Should these details have changed or be incorrect could you please provide me with the correct details for Mr and Mrs Nel so that I may update the database.

Furthermore, please advised that the applicant has formally withdrawn the first application from the Department of Mineral Resources. Please note that a new application will be lodged in due course.

With regards to the availability of the Scoping Report, please be advised that it is anticipated that the Scoping Report will be released for public review and comment within the following 2 months. Furthermore, as a registered I&AP, please be advised that you will be immediately notified of the release of the Scoping Report for public review and comment.

I trust you find the above in order.

Should you have any further comments or queries please do not hesitate to contact me.

Warm regards,

MS. CHEYENNE

Hi Deshree,

My apologies for only responding to your email now. I have been on site. As per our telephonic discussion, the Scoping report is currently undergoing internal review. Once it is made available, you will be notified of the availability of the Scoping Report for public review and comment.

Furthermore, please note that your request for the original 2008 Mining Right EMP that was done by Ferret Mining for Tshedza Mining Resources (Pty) Ltd was sent to the client. I will get back to you regarding the original EMP once I receive feedback from the client.

Should you have any further queries please do not hesitate to contact me.

Warm regards,

Good day Cheyenne

I hope you are well, I know you are currently on site visit. I would please like to ask how far is the progress of the Scoping Report? I would also please like to ask if you by any chance have the original 2008 Mining Right EMP that was done by Ferret Mining for Tshedza Mining Resources (Pty) Ltd. We have tried phoning them as well as Eco-gain Consulting who did the previous Basic Assessment but with no luck as both numbers do not exist. Have a great day further.
